NEUROLOGY & CONCUSSION MANAGEMENT

PERSONALIZED TREATMENT IS A PROCESS NOT A PROTOCOL

Tuesday, August 25, at 7 pm – FREE and open to the public

Virtual Program <https://www.ibji.com/virtual-events/>

As part of the North Suburban YMCA's Adult Education Series, Illinois Bone and Joint Institute's Anthony Savino, MD will discuss the importance of getting to the bottom of concussion and other neurologic challenges in order to properly treat individual patients. Dr. Savino believes that, "Treatment needs to be personalized for each patient, it is less about a protocol and more so a process."

Dr. Anthony Savino

Dr. Savino is a board-certified neurologist with fellowship training in sports neurology. In addition to the treatment of all adult neurological disorders, he specializes in the management of concussion, headache, sleep and mood problems, and maintenance of long-term brain health in athletes of any age.

Anthony Savino, MD

Additional Areas of Expertise

- Acute concussion care
- Autonomic dysfunction in concussion
- Post-concussion syndrome
- Migraine and other headaches
- Sleep disorders
- Brain health
- Pre-participation neurological evaluations
